

We were the DJs at the Boots 'n' Buckles dance Friday (6/7/13) in Fremont, CA, 8-11 pm. We tried to play something for everyone: oldies, some long-time favs. and some newer and brand new dances (45 all together). Tons of energy was on the floor all night, and many dancers remained until the last minute! Thanks to all for coming and supporting BnB! (almost 50 dancers in attendance--48 to be exact!). The most requested of those played was Waltzing At Twilight. However, several others were close to the top most requested as well! Also an important criteria regarding popularity is how many people rush to the floor to do a particular dance, even though there may not be as many request initials for that dance.
